

Buchanan Street Waterline Renewal

Water Rehabilitation Project Newsletter

Newsletter No. 2

August 2022

Much has occurred since the first Buchanan Street Waterline Renewal newsletter. The contractor, Peters & White Construction Inc. has begun installation of the water line along Bainbridge Boulevard, starting from the intersection of Grady Street and work north towards D Street.

As stated in our previous newsletter, construction of a project of this magnitude has a significant impact on those who live and work in the area. Because much of the work is in the streets, you can expect some traffic delays and detours during construction. However, regular trash pickup, mail delivery, and emergency services will be maintained. And with the regular school year starting soon, access to bus stops will not be impacted.

There may be brief periods when water service is turned off in order to test new lines or switch your service to the new system. **You will be notified in advance when service will be interrupted.** You will continue to have access to your property throughout construction although there may be brief blockages while work takes place directly in front of your property.

The City will continue to have full-time inspectors on-site throughout construction to ensure the work is done efficiently and disruptions are kept to a minimum. Should you have questions or experience a specific problem with the work, let our inspector know. As the project progresses, continued updates will be provided. Again, we thank you for your patience and understanding. Once completed, this project will greatly improve water service to the area and streets will have brand new pavement. Should you have any questions during construction, you may contact the following individuals:

General Questions about the Project?

Contact Mr. Arnie Cuevas, Chesapeake Public Utilities at 757-382-6019 or Mr. Scott Morrow, Hazen & Sawyer at 757-818-9767.

Specific Questions or problems with work at your property?

Contact Mr. Andre Mendez, Hazen & Sawyer Field Inspector at 757-576-4895.
